Experience

Frontend Developer Internship | NFT Marketplace   **Nov 2023 - Dec 2023**
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Frontend Developer Support   **Jun 2023 - Current**
Frontend Simplified Discord

- Supported an array of students to debug code using HTML, CSS, Flexbox, JavaScript and React best practises.
- Utilized debugging best practises using Google Chrome inspect element tooling.

Projects

Twitter Clone | View project

- Developed a social media app with various functionalities such as: Creating a user account, Posting Tweets, Commenting, Liking Tweets, and Posting pictures.
- Utilized NEXT.js to implement SSR rendering for better SEO.

Library E-Commerce App | View project | GitHub

- Created a fully responsive book library app with E-Commerce functionality (e.g. Prices, Discounts, Filter System, Cart) and implemented dynamic routing using react-router-dom library.

Fun With Flags | View project

- Integrated a REST Countries API to create an application that shows some details of any country clicked or searched (e.g. Capital, Currency, Languages, Flag).
- Processed API requests with Axios to dynamically to represent data.

Treact Clone | View project | GitHub

- Cloned a cutting edge Treact landing page UI using HTML, CSS & JavaScript best practices.

Personal Blog | Website | GitHub

- Created an aesthetic personal blog using HTML & CSS best practices where my coding journey is being documented.

Education

Software Engineering Diploma   **May 2022 - Current**
NIIT

Frontend Developer Career Path   **Jun 2023 - Dec 2023**
Frontend Simplified
